

May 16, 2023

Deep Cove parents and guardians,

As June approaches, we are beginning our class planning for next year. Our goals are likely the same as yours - we are striving for your child and the success of all children. Rest assured that staff work hard to create inclusive classrooms that balance different types of learners and educational needs.

The **Consideration Card** is an optional way for you to share specific learner information about your child. Most times it should not be necessary to submit a request. If you wish to do so, it is helpful to focus on the learning environment where your child learns best - what helps your child in their growth as a learner. Input that focuses on learning is welcome and can at times be very helpful. There are however certain requests that we are unable to consider – we ask that you do not propose specific teachers, grouping with friends, grouping based on siblings’ experiences, or a request for non-multi-age classes.

The Consideration Card may be submitted to the office by June 2, 2023. You may also get a copy from the front office or our website, as well as submit electronically to [lwatt@saanichschools.ca](mailto:lwatt@saanichschools.ca)

If you have any comments or questions regarding this input process, please contact the school office (250-656-7254). Thank you for your support as we strive to create positive learning experiences for your children.

Philip Jungen and Jodi Beaudry, Deep Cove Administrative Team

**CONSIDERATION CARD FOR NEXT SCHOOL YEAR 2023-2024**
